

TAMCO

POWER FROM WITHIN

COMPANY PROFILE

EXPLORE WHAT TAMCO HAS TO OFFER

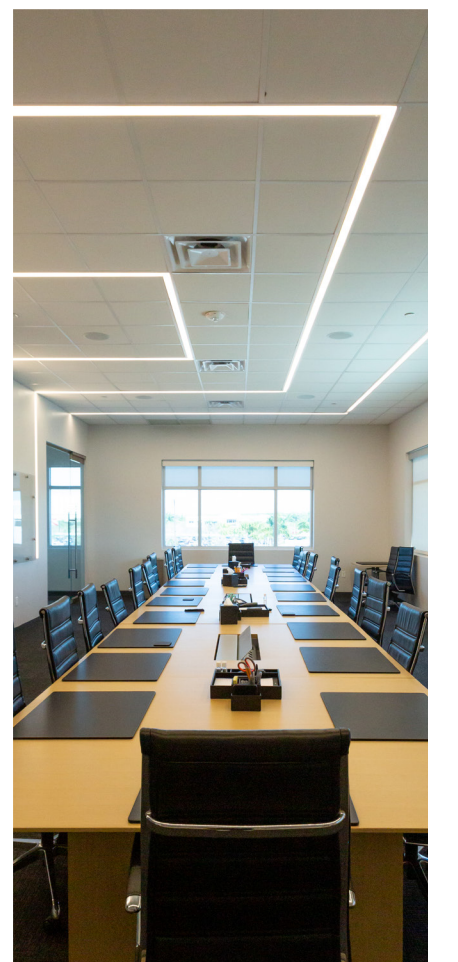

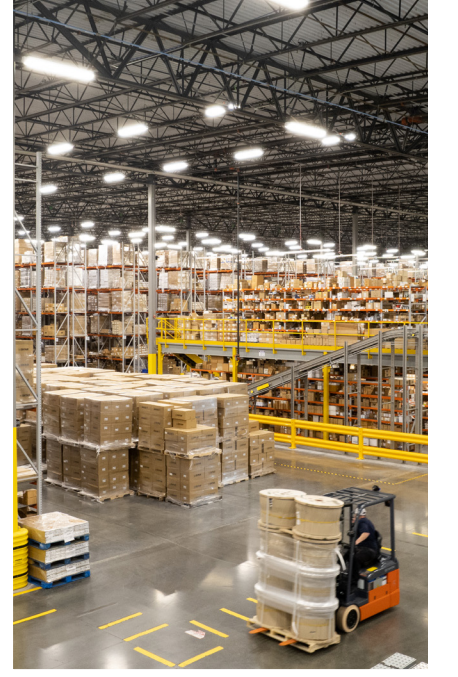

Welcome to TAMCO

TAMCO Group manufactures, assembles, and distributes lighting and electrical products sold exclusively through City Electric Supply in North America.

Tamlite Lighting & Fusion Lamps manufactures lighting fixtures, accessories, and lamps; F4P, RPP, MCG Industrial, and Centaur Electrical Installation sell electrical supplies and consumables; Advent offers high-quality commercial and residential bath fans and door chime kits; and 1329 Wire & Cable provides cables, cords, and wire crafted for durability and superior quality. With over 800,000 sq. ft. of manufacturing and fulfillment center space across North America, TAMCO is committed to manufacturing high-quality products to customers throughout the industry.

Our company mantra is "Power from Within," as we believe our greatest assets are our employees.

OUR STORY

The establishment of TAMCO Group began in 1996 when CES embarked on manufacturing lighting products under Tamlite Lighting.

Over the course of the next few years, the company aggressively expanded its product offering to cover a full range of electrical supplies to meet the needs of its growing branch network and customer base. Subsequently, giving birth to TAMCO.

In 1996, City Electric Supply opened a 20,000 sq. ft. manufacturing facility in Port St. Lucie, FL, where it officially began building lighting products branded Tamlite Lighting.

2000

Creation of additional factory operations to offer CES a more diverse product line. Progression began with Centaur Electrical Installation and continued over subsequent years to include Fusion Lamps, RPP, F4P, and MCG.

2005

On the heels of TAMCO's success in the U.S., fulfillment and manufacturing operations were developed in Canada.

2014

TAMCO Group was established as the management arm of Tamlite Lighting, F4P, RPP, MCG, Fusion Lamps & Centaur Electrical Installation.

2016

To expand on its commitment to quality and innovation, the company invested heavily in implementing high-tech manufacturing machinery and testing equipment that immediately impacted the quality of the materials sourced and products produced.

2020

After years of hard work, diligence, and planning, TAMCO Group opened a 411,000 sq. ft. Manufacturing/Fulfillment Center – bringing all brands, in addition to Advent, under one roof.

2023

Proud to announce our new manufacturing products, including Centaur's Strut Line, located at TAMCO Group's Manufacturing/Fulfillment Center.

2024

TAMCO welcomes its newest brand, 1329 Wire & Cable. 1329 Wire & Cable features masterfully crafted low and high-voltage wire and cable options tailored for various applications.

**A Dream.
A Vision.
A Reality.”**

TAMCO

FUSION LAMPS MCG INDUSTRIAL ADDVENT 13 THIRTEEN 29 TWENTY-NINE A WIRE & CABLE COMPANY

8 BRANDS UNDER 1 ROOF

Tamlite Lighting provides a full range of lighting fixtures serving the residential, commercial, and industrial markets. Tamlite Lighting produces and continually innovates its product offering to meet the demands of today's customers through its U.S. manufacturing capabilities.

Centaur Electrical Installation manufactures and distributes premium electrical installation components. The strength of Centaur is derived from its in-depth product portfolio, which includes everything from conduit and fittings to junction boxes and strut accessories, available in a multitude of finishes and materials.

RPP has a diverse offering of switches, receptacles, sensors, and controls. Its solution-based product portfolio allows RPP to offer the necessary device.

F4P offers a wide array of everyday electrical products, materials, and tools, including tape, wire connectors, fasteners, chemicals, safety gear, ladders, and extension cords. With its namesake in mind, F4P strives to make quality products that are "First for Performance."

Fusion Lamps understands the future of lighting, and its product offering reflects that. Fusion Lamps offers a wide range of LED bulbs and lamps, including fluorescent, HID, and incandescent bulbs and lamps.

MCG Industrial specializes in industrial motor controls and automation products. While recognized for its large product offering of individual components, MCG offers a variety of custom-built solutions. Its UL 508 certification supports the expertise of the team and the quality of the products produced.

Engineered for reliability, Addvent offers high-quality bath fans and doorbell chime kits designed for residential and commercial applications. With hassle-free installation, Addvent's extensive product line delivers unparalleled efficiency and functionality. From powerful ventilation solutions to dependable doorbell systems.

1329 Wire & Cable features masterfully crafted low and high-voltage wire and cable options tailored for various applications. Residential, commercial, and industrial wire and cable needs are met with superior quality. Ensure your projects are equipped with durable and efficient cable solutions with 1329 Wire & Cable.

SUPPORTING OUR SUCCESS

We believe that quality products are built on the solid foundation of process management, vertical integration, and business continuity.

Building quality products, selling at competitive prices, and delivering on time requires continuity across the product life cycle. These three aspects are critical along the journey to provide our customers with the assurance of high-quality products the first time and every time.

Quality Control

Quality products don't just happen. Our in-house testing facility provides our engineers with the necessary tools to test raw materials and finished products. This offers us the ability to quickly redesign products to enhance quality prior to manufacturing.

ISO 17025 Accreditation ensures that every lamp and fixture produced meets very strict guidelines and consistency standards.

Engineering

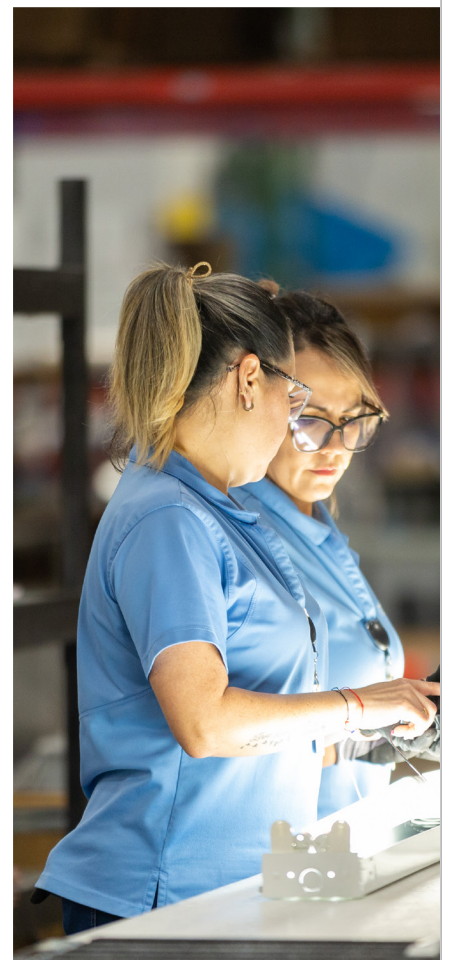

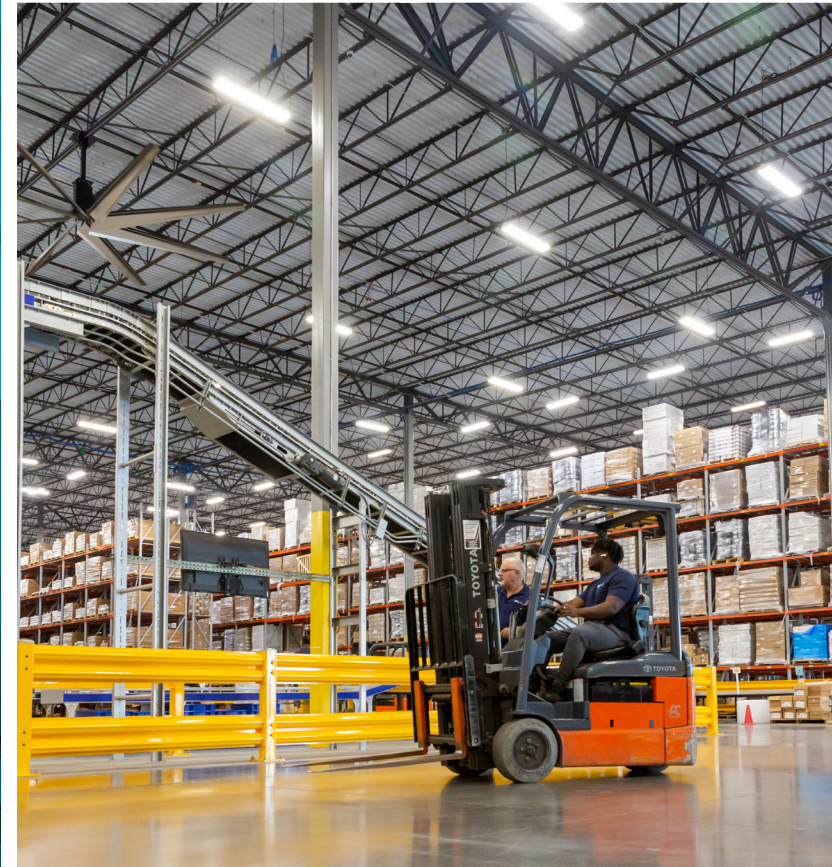

The products our experienced team manufactures and distributes are tailor-made to fit our customers' needs on a mass scale — leading to innovation in every piece of material we produce at our facilities.

Manufacturing/Assembly

Proudly made in the U.S.A., our products are manufactured and assembled through the highest quality control thanks to the consistency and innovation of our in-house brands.

Distribution/Logistics

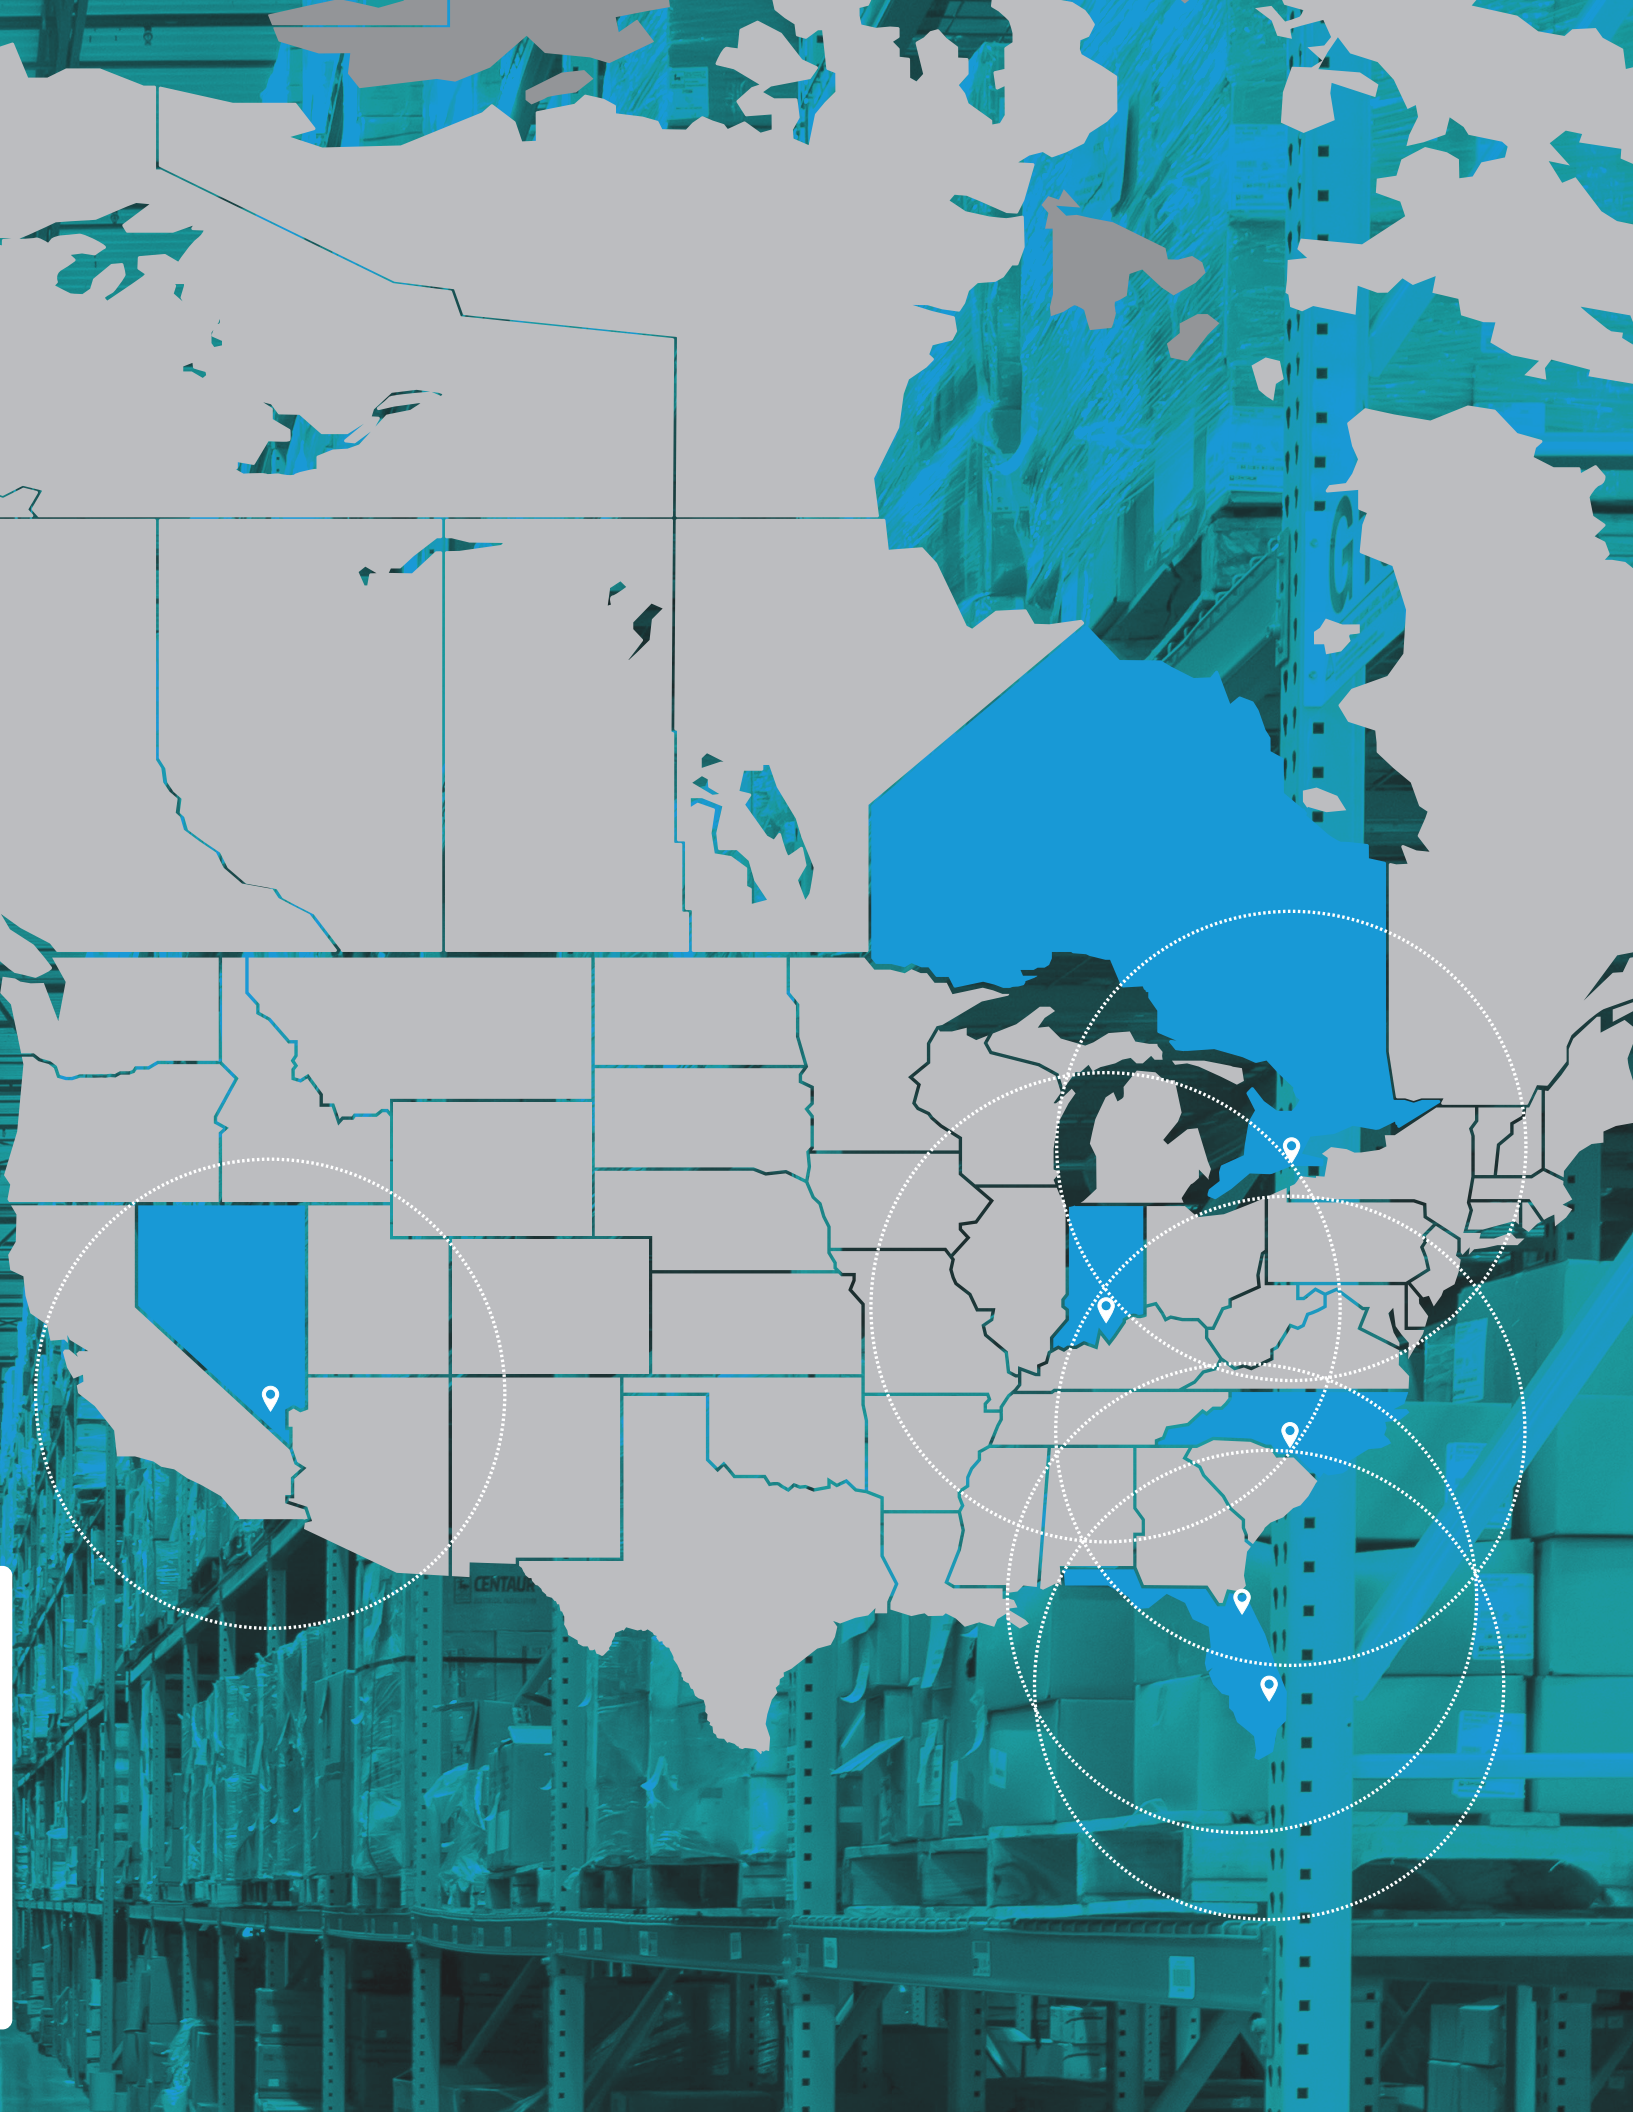

Our Logistics Department is committed to optimizing distribution channels to reduce freight and delivery times helping you and your customers keep projects on time and within budget. Since our inception, we have consistently evaluated our distribution network to position our fulfillment centers to best serve our customers. With several fulfillment centers throughout the U.S., we aim to meet and exceed customer expectations.

NORTH AMERICAN FACILITY LOCATIONS
